

### Featured Seminar:

Dr. William Glasser will be presenting a one-day workshop at the conference titled, “Defining Mental Health as a Public Health Problem – Including Counseling with Choice Theory, the New Reality Therapy”.

Dr. Glasser is a very warm, personable man who is successful in getting involved with his audience through the extensive use of examples. He is gifted with an outstanding sense of humor, which makes the day entertaining as well as informative. He will answer questions and will also show how to apply what he does through spontaneous role-plays with volunteers from the audience. He makes himself available during breaks and enjoys the chance to interact with those who want to take this time to get to know him better.
